# CONSOLIDATED FINANCIAL STATEMENTS

Year Ended Dec 31, 2022

[www.k-brolinen.com](http://www.k-brolinen.com) | [inquiries@k-brolinen.com](mailto:inquiries@k-brolinen.com)

## Independent auditor's report

To the Shareholders of K-Bro Linen Inc.

---

### Our opinion

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of K-Bro Linen Inc. and its subsidiaries (together, the Corporation) as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards (IFRS).

### What we have audited

The Corporation's consolidated financial statements comprise:

- the consolidated statements of financial position as at December 31, 2022 and 2021;
- the consolidated statements of earnings and comprehensive income for the years then ended;
- the consolidated statements of changes in equity for the years then ended;
- the consolidated statements of cash flow for the years then ended; and
- the notes to the consolidated financial statements, which include significant accounting policies and other explanatory information.

---

### Basis for opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Independence

We are independent of the Corporation in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada. We have fulfilled our other ethical responsibilities in accordance with these requirements.

---

### Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended December 31, 2022. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

## Key audit matter

## How our audit addressed the key audit matter

amount of the CGUs were the pre-tax discount rate and the terminal value growth rate. As a result of the testing as at December 31, 2022, no impairment was determined to exist.

We considered this a key audit matter due to (i) the significance of the goodwill, intangible assets and property, plant and equipment balances and (ii) the significant judgments and estimates made by management in determining the recoverable amount of the UK Division, including the use of key assumptions. This has resulted in a high degree of subjectivity and audit effort in performing audit procedures to test the key assumptions.

Professionals with skill and knowledge in the field of valuation assisted us in performing our procedures.

---

## Other information

Management is responsible for the other information. The other information comprises the Management's Discussion and Analysis, which we obtained prior to the date of this auditor's report and the information, other than the consolidated financial statements and our auditor's report thereon, included in the annual report, which is expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express an opinion or any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard. When we read the information, other than the consolidated financial statements and our auditor's report thereon, included in the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

---

## **Responsibilities of management and those charged with governance for the consolidated financial statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Corporation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Corporation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Corporation's financial reporting process.

---

## **Auditor's responsibilities for the audit of the consolidated financial statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or

conditions that may cast significant doubt on the Corporation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Corporation to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Corporation to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Richard Probert.

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

---

K-Bro Linen Inc. (the "Corporation" or "K-Bro") is incorporated in Canada under the Business Corporations Act (Alberta). K-Bro is the largest owner and operator of laundry and linen processing facilities in Canada and a market leader for laundry and textile services in Scotland and the North East of England. K-Bro and its wholly owned subsidiaries, operate across Canada and the United Kingdom ("UK"), provide a range of linen services to healthcare institutions, hotels and other commercial organizations that include the processing, management and distribution of general linen and operating room linen.

The Corporation's operations in Canada include nine processing facilities and two distribution centres under three distinctive brands, including K-Bro Linen Systems Inc., Buanderie HMR and Les Buanderies Dextraze, in ten Canadian cities: Québec City, Montréal, Toronto, Regina, Saskatoon, Prince Albert, Edmonton, Calgary, Vancouver and Victoria.

The Corporation's operations in the UK include Fishers Topco Ltd. ("Fishers") which was acquired by K-Bro on November 27, 2017. Fishers was established in 1900 and is an operator of laundry and linen processing facilities in Scotland, providing linen rental, workwear hire and cleanroom garment services to the hospitality, healthcare, manufacturing and pharmaceutical sectors. Fishers' client base includes major hotel chains and prestigious venues across Scotland and the North East of England. The company operates in five cities, in Scotland and the North East of England with facilities in Cupar, Perth, Newcastle, Livingston and Coatbridge.

The Corporation's common shares are traded on the Toronto Stock Exchange under the symbol "KBL". The address of the Corporation's registered head office is 14903 – 137 Avenue, Edmonton, Alberta, Canada.

These audited annual consolidated financial statements (the "Consolidated Financial Statements") were approved and authorized for issuance by the Board of Directors ("the Board") on March 21, 2023.

## 1 Basis of Presentation

The Consolidated Financial Statements of the Corporation have been prepared in accordance with International Financial Reporting Standards as published in the CPA Canada Handbook (IFRS). The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Corporation's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the Consolidated Financial Statements are disclosed in Note 5.

## 2 Significant accounting policies

The principal accounting policies applied in the preparation of these Consolidated Financial Statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

### a) Basis of Measurement

The Consolidated Financial Statements have been prepared under the historical cost convention.

### b) Principles of Consolidation

The consolidated financial statements include the Corporation, its wholly owned subsidiaries, and the long-term incentive plan account (Note 2(o)). All intercompany balances and transactions have been eliminated upon consolidation.

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

---

## c) Cash and Cash Equivalents

Cash and cash equivalents includes cash on hand, deposits with banks, and other short-term highly liquid investments with original maturities of three months or less.

Cash and cash equivalents are classified as loans and receivables and are carried at amortized cost, which is equivalent to fair value.

## d) Linen in Service

Linen in service is stated at cost less accumulated depreciation. The cost is based on the expenditures that are directly attributable to the acquisition of linen, amortization commences when linen is put into service; with operating room linen amortized across its estimated service life of 24 months and general linen amortized based on usage which results in an estimated average service life of 24 to 36 months.

## e) Revenue Recognition

A laundry services contract is a contract specifically negotiated for the provision of laundry and linen services. Revenue is based on contractually set pricing on a consistent unit-of-weight or price-per-piece basis for each service over the term of the contract. The Corporation reports revenue under two revenue categories: healthcare and hospitality services. When determining the proper revenue recognition method for contracts, the Corporation evaluates whether two or more contracts should be combined and accounted for as one single contract and whether the combined or single contract should be accounted for as more than one performance obligation. The Corporation accounts for a contract when, it has commercial substance, the parties have approved the contract in accordance with customary business practices and are committed to their obligations, the rights of the parties and payment terms are identified, and collectability of consideration is probable.

### 1. Identifying the Contract

The Corporation's policy for revenue recognition requires an appropriately authorized contract, with sign-off by representatives from all respective parties before any services are provided to a customer. Contained within the terms of these contracts is detailed information identifying each party's rights regarding the laundry and linen services to be provided, as well as associated payment terms (i.e., service pricing, early payment discounts, invoicing requirements, etc.). In addition, the Corporation's contracts have commercial substance as the services to be provided will directly impact the Corporation's future cash flows via incoming revenue and related outgoing expenditures.

As part of the Corporation's analysis in reviewing and accepting a contract, the Corporation assesses the likelihood of collection from all prospective customers and only transacts with those customers from which payment is probable. As the Corporation's significant customer contracts are generally with government-funded health agencies and large volume hotels, it is probable that the Corporation will collect the consideration to which is entitled for the performance of these contracts.

For services provided following the expiration of a contract and subsequent renewal negotiations, the terms of the original contract carry forward until the new agreement has been appropriately authorized. This is confirmed through verbal approval and is consistent with customary business practices.

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

---

## 2. Identifying performance obligations in a contract

Linen services are provided to the Corporation's customers consecutively over a period of time (i.e., daily deliveries over the contract term) and the same method is used to measure the Corporation's progress in satisfying the performance of the contract (i.e., revenue is based on contractually set pricing on a consistent unit-of-weight or price-per-piece basis for each service over the term of the contract). Additionally, these services generally include integrated processing and delivery, consist of a single deliverable (clean processed volume), and in the case of rental linen, are not offered individually (rental linen is used as an input in the provision of standard laundry and linen services). Therefore, the services provided under one service agreement constitute a single performance obligation.

## 3. Determining the transaction price

The majority of the Corporation's contracts utilize a fixed pricing model. These contracts stipulate a fixed rate to be charged to customers on a price-per-unit basis, including either weight-based or item-based billing. For these types of arrangements, revenue is recognized over time as each unit of linen is processed and delivered using the fixed consideration rate per the contract. In addition to the above pricing methodology, some contracts have additional components which meet the definition of variable consideration per IFRS 15, which are accounted for using the most likely amount method. The estimates of variable consideration and determination of whether to include estimated amounts in the transaction price are based largely on an assessment of the Corporation's anticipated performance and all information, historical, current, and forecasted, that is reasonably available.

## 4. Allocating the Transaction Price

Each of the customer's individual customer contracts represents a single performance obligation. As a result, the transaction price for each contract (based on contractually stipulated fixed and variable pricing for a single deliverable) is allocated to each processed item based on the agreed upon rate.

Volume rebates, where applicable, are recorded based on annualized expected volumes of individual customer contracts when it is reasonable that the criteria are likely to be met. Based on past experience, management believes that volumes utilized for any estimates are reasonable and would not expect a material deviation to the balance of accrued liabilities or revenue.

## 5. Performance obligations satisfied over time

The Corporation typically transfers control of goods or services and satisfies performance obligations over time, once clean linen has been provided to the customer and the customer has accepted delivery of the processed items.

Payment of laundry services are due respective of the terms as indicated in the customer's laundry service contract, whereby customers are generally invoiced on a monthly basis and consideration is payable when invoiced.

The Corporation presents its contract balances, on a contract-by-contract basis, in a net contract asset or liability position, separately from its trade receivables. Contract assets and trade receivables are both rights to receive consideration in exchange for goods or services that the Company has transferred to a customer, however the classification depends on

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

---

whether such right is only conditional on the passage of time (trade receivables) or if it is also conditional on something else (contract assets), such as the satisfaction of further performance obligations under the contract. A contract liability is the cumulative amount received and contractually receivable by the Corporation that exceeds the right to consideration resulting from the Corporation's performance under a given contract.

## f) Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Corporation and the cost of the item can be reliably measured. The carrying amount of a replaced part is derecognized. Repairs and maintenance are charged to the Consolidated Statements of Earnings and Comprehensive Income during the financial period in which they are incurred.

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. The Corporation has not capitalized any borrowing costs during the year as there were no qualifying assets.

Property, plant and equipment include right of use assets as disclosed under the Corporation's leasing policy in note 2(r). Right of use assets arise from a lease that is initially measured on a present value basis, and are classified within the relevant property, plant and equipment categories based on the type of asset.

The major categories of property, plant and equipment are depreciated on a straight-line basis to allocate their cost over their estimated useful lives as follows:

Asset	Rate
Buildings	15 - 25 years
Laundry equipment	7 - 20 years
Office equipment	2 - 5 years
Delivery equipment	5 - 10 years
Computer equipment	2 years
Leasehold improvements	Lease term

Gains and losses on disposals of property, plant and equipment are determined by comparing the proceeds with the carrying amount of the asset.

## g) Intangible Assets

Intangible assets acquired in a business combination are recorded at fair value at the acquisition date. Subsequently they are carried at cost less accumulated amortization and accumulated impairment losses.

The major categories of intangible assets are depreciated on a straight-line basis to allocate their cost over their estimated useful lives as follows:

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

---

Asset	Rate
Customer contracts	1 - 20 years
Computer software	5 years
Brand	Indefinite

These estimates are reviewed at least annually and are updated if expectations change as a result of changing client relationships or technological obsolescence.

## h) Impairment of Non-Financial Assets

Property, plant and equipment and intangible assets are tested for impairment when events or changes in circumstances indicate that the carrying amount may not be recoverable. Long-lived assets that are not amortized are subject to an annual impairment test. For the purpose of measuring recoverable amounts, assets are grouped at the lowest level for which there are separately identifiable cash flows (cash-generating unit or "CGU"). The recoverable amount is the higher of an asset's fair value less costs to sell and value in use (being the present value of the expected future cash flows of the relevant asset or CGU). An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount firstly to the recorded goodwill, then to the other assets in the CGU on a pro rata basis, as determined by the carrying amount of each asset in the CGU. The Corporation evaluates impairment losses, other than goodwill impairment, for potential reversals when events or circumstances warrant such consideration.

## i) Income Taxes

The tax expense for the year comprises current and deferred tax. Tax is recognized in the Consolidated Statements of Earnings and Comprehensive Income, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

The current income tax provision is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date of the taxation authority where the Corporation operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognized, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Consolidated Financial Statements. Deferred income tax is determined using tax rates and laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized, or the deferred income tax liability is settled.

Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

## j) Business Combinations

Business combinations are accounted for using the acquisition method. The acquired identifiable net assets are measured at their fair value at the date of acquisition. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Any excess of the purchase price over the fair value of the net assets acquired is recognized as goodwill. Any deficiency of the purchase price below the fair value of the net assets

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

---

acquired is recorded as a gain in net earnings. Associated transaction costs are expensed when incurred.

## **k) Goodwill**

Goodwill is the residual amount that results when the purchase price of an acquired business exceeds the sum of the amounts allocated to the identifiable assets acquired, less liabilities assumed, based on their estimated fair values at the acquisition date. Goodwill is allocated as of the date of the business combination. Goodwill is tested for impairment annually in the fourth quarter, or more frequently if events or changes in circumstances indicate a potential impairment.

Goodwill acquired through a business combination is allocated to each CGU, or group of CGUs, that are expected to benefit from the related business combination. A CGU represents the lowest level within the entity at which the goodwill is monitored for internal management purposes.

## **l) Earnings Per Share**

Basic earnings per share ("EPS") is calculated by dividing net earnings for the period attributable to Shareholders of the Corporation by the weighted average number of Common shares outstanding during the period.

Diluted EPS is calculated by adjusting the weighted average number of common shares outstanding for dilutive instruments. The number of common shares included within the weighted average is computed using the treasury stock method. The Corporation's potentially dilutive Common shares are comprised of long-term incentive plan equity compensation granted to officers and key employees (Note 2(o)).

## **m) Foreign Currency Translation**

The consolidated financial statements are presented in Canadian dollars. The Corporation's operations in Canada have a functional currency of Canadian dollars. The Corporation's operations in the UK have a functional currency of pounds sterling.

### **Translation of foreign entities**

The functional currency for each of the Corporation's subsidiaries is the currency of the primary economic environment in which it operates. Operations with foreign functional currencies are translated into the Corporation's presentation currency in the following manner:

- Monetary and non-monetary assets and liabilities are translated at the spot exchange rate in effect at the reporting date;
- Revenue and expense items (including depreciation and amortization) are translated at average rates of exchange prevailing during the period, which approximate the exchange rates on the transaction dates;
- Impairment of assets are translated at the prevailing rate of exchange on the date of the impairment recognition, and;
- Exchange gains that result from translation are recognized as a foreign currency translation difference in accumulated other comprehensive income (loss).

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

---

## Translation of transactions and balances

Transactions in currencies other than the entity's functional currency are recognized at the rates of exchange prevailing at the date of the transaction as follows:

- Monetary assets and liabilities are translated at the exchange rate in effect at the reporting date;
- Non-monetary items are translated at historical exchange rates; and
- Revenue and expense items are translated at the average rates of exchange, except depreciation and amortization, which are translated at the rates of exchange applicable to the related assets, with any gains or losses recognized within "finance expense" in the consolidated statements of earnings & comprehensive income.

## n) Provisions

Provisions are recognised when the Corporation has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

## o) Employee Benefits

### Post-employment benefit obligations

The Corporation contributes on behalf of its employees to their individual Registered Retirement Savings Plans subject to an annual maximum of 10% of gross personal earnings. The Corporation accounts for contributions as an expense in the period that they are incurred. The Corporation does not provide any other post-employment or post-retirement benefits.

### Existing equity-based compensation plan of the Corporation

On June 16, 2011, the Shareholders of the Corporation approved a new Long-term Incentive Plan ("LTI"), which was amended and restated as of December 31, 2018. Under the LTI, awards are granted annually in respect of the prior fiscal year to the eligible participants based on a percentage of annual salary. The amount of the award (net of withholding obligations) is satisfied by issuing treasury shares or cash to be held in trust by the trustee pursuant to the terms of the LTI. All awards issued under the provisions of the LTI are recorded as compensation expense over the relevant service period, being the year to which the LTI relates and the vesting period of the shares.

The Amendment made on December 31, 2018 gave the Board of Directors the right to elect to satisfy the award in cash. The Corporation has determined that this change did not create an

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

---

obligation to satisfy the award in cash and therefore the LTI continues to be treated as an equity settled share based payment.

Subject to the discretion of the Compensation, Nominating and Corporate Governance Committee of the Board of Directors, one-quarter of a Participant's grant will vest on the Determination Date (defined as the first May 15th following the date that the Directors of the Corporation approve the audited consolidated financial statements of the Corporation for the prior year). The remaining three-quarters of the Participant's grant will vest on November 30th following the second anniversary of the Determination Date.

If a change of control occurs, all LTI Shares held by the Administrator in respect of unvested grants will vest immediately. LTI participants are entitled to receive dividends on all common shares granted under the LTI whether vested or unvested. In most circumstances, unvested common shares held by the LTI Administrator for a participant will be forfeited if the participant resigns or is terminated for cause prior to the applicable vesting date, and those common shares will be disposed of by the Administrator to K-Bro for no consideration and such Common shares shall thereupon be cancelled. If a participant is terminated without cause, retires or resigns on a basis which constitutes constructive dismissal, the participant will be entitled to receive his or her unvested common shares on the regular vesting schedule under the LTI.

## **p) Financial Instruments**

The Corporation classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income (loss), or through profit or loss); and
- those to be measured at amortized cost.

The classification depends on the Corporation's business model for managing the financial assets and contractual terms of the cash flows.

At initial recognition, the Corporation measures a financial asset at fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset.

The Corporation's financial assets consist of cash and cash equivalents and accounts receivable, which are measured at amortized cost using the effective interest method under IFRS 9.

The Corporation's financial liabilities consist of accounts payable and accrued liabilities, lease liabilities, dividends payable and long-term debt. Accounts payable and accrued liabilities and dividends payable are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method. Lease liabilities are recognized initially at their net present value and subsequently measured at amortized cost using the effective interest method.

Long-term debt and borrowings are initially recognized at fair value, net of transaction costs incurred and are subsequently measured at amortized cost. Long-term debt and borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired.

The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

---

or liabilities assumed, is recognized in profit or loss as other income or finance costs. Borrowings are classified as current liabilities unless the group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

Financial assets and liabilities are offset, and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period and included as part of the profit and loss.

## **q) Impairment of Financial Assets**

Information about the impairment of financial assets, their credit quality and the Corporation's exposure to credit risk can be found in Note 21(d). The Corporation utilizes the application of the simplified approach to provide for expected credit losses prescribed by IFRS 9, which permits the use of the lifetime expected loss provision for all trade receivables. To measure the expected credit losses, the Corporation's trade receivables have been grouped based on operating segment, shared credit risk characteristics and days past due. Accounting judgment and estimate is required in the assessment of the lifetime expected default rate of each trade receivables grouping. The lifetime expected default rates are reviewed at least annually and are updated if expectations change.

At each reporting date, the Corporation assesses whether there is objective evidence that a financial asset is impaired. If such evidence exists, the Corporation recognizes an impairment loss equal to the difference between the amortized cost of the loan or receivable and the present value of the estimated future cash flows, discounted using the instrument's original effective interest rate. The carrying amount of the asset is reduced by this amount either directly or indirectly through the use of an allowance account.

Impairment losses on financial assets carried at amortized cost are reversed in subsequent periods if the amount of the loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized.

## **r) The Corporation's leasing activities and how these are accounted for**

The Corporation leases various buildings, vehicles and equipment. Rental contracts are typically made for fixed periods of one to fifteen years but may have extension options as described in Note 2(r)(ii) below. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any financial covenants, but leased assets may not be used as security for borrowing purposes.

Leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Corporation. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

---

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate
- amounts expected to be payable by the lessee under residual value guarantees, and
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the lessee's incremental borrowing rate is used, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

To determine the incremental borrowing rate, the Corporation:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received,
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk, and
- makes adjustments specific to the lease, e.g., term, country, currency and security.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability,
- any lease payments made at or before the commencement date less any lease incentives received,
- any initial direct costs, and
- restoration costs.

Payments associated with short-term leases and leases of low-value assets are recognized on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets are comprised of IT-equipment and small items of office furniture.

## **(i) Variable lease payments**

Based on the valuation of the Corporation's leases, no leases have been identified that are directly tied to an index or rate, and whereby an estimate would be required in determining the uncertainty arising from variable lease payments.

## **(ii) Extension and termination options**

Extension and termination options are included in a number of property and equipment leases across the Corporation. These terms are used to maximize operational flexibility in terms of managing contracts. The majority of extension and termination options held are exercisable only by the Corporation and not by the respective lessor.

## **s) Government Grants**

Government grants, including non-monetary grants at fair value, are only recognised when there is reasonable assurance that:

- (a) all conditions attaching to the Government grant will be complied with;
- (b) the value of the grant can be determined with reasonable certainty; and

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

---

(c) the grant will be received.

Government grants are recognised in the profit or loss over the periods in which the Corporation recognises related expenses. Where government grants relate to costs which have been capitalised as assets these are recognised as a reduction to the related asset in the consolidated statements of financial position and transferred to profit or loss over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Corporation with no future related costs are recognised in profit or loss in the period in which they relate to.

## 3 Changes and updates in accounting policies

The Corporation adopted the following accounting standards and amendments that were effective for our interim and annual consolidated financial statements commencing January 1, 2021. These changes did not have a material impact on our financial results and are not expected to have a material impact in the future.

### **Interest Rate Benchmark Reform – Phase 2**

In August 2020, the IASB issued Interest Rate Benchmark Reform – Phase 2, which amends IFRS 9 Financial Instruments, IAS 39 Financial Instruments: Recognition and Measurement, IFRS 7 Financial Instruments: Disclosures, IFRS 4 Insurance Contracts and IFRS 16 Leases. The amendments apply for annual periods beginning on or after January 1, 2021.

The Phase 2 amendments address issues that might affect financial reporting during the reform of an interest rate benchmark, including the effects of changes to contractual cash flows or hedging relationships arising from the replacement of an interest rate benchmark with an alternative benchmark rate.

There is significant uncertainty over the timing of when the replacements for IBORs will be effective and what those replacements will be. We will actively monitor the IBOR reform and consider circumstances as we renew or enter into new financial instruments.

## 4 New standards and interpretations not yet adopted

New standards, interpretations, or amendments that have been issued, or are not yet effective, have not been further described or early adopted, where no material impact is expected on the Corporation's consolidated financial statements.

The IASB has issued the following new standard and amendments to existing standards that will become effective in future years.

- Amendments to IAS 1, Presentation of Financial Statements - Disclosure of Accounting Policies, requiring entities to disclose material, instead of significant, accounting policy information.
- Amendments to IAS 1, Presentation of Financial Statements - Classification of Liabilities as Current or Noncurrent, clarifying requirements for the classification of liabilities as non-current.
- Amendments to IAS 8, Accounting Policies - Changes in Accounting Estimates and Errors, clarifying the definition of "accounting policies" and "accounting estimates".
- Amendments to IAS 12, Deferred Tax related to Assets and Liabilities arising from a Single Transaction, that clarify how companies account for deferred tax on transactions such as leases

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

---

and decommissioning obligations. The amendments are effective for annual periods beginning on or after January 1, 2023.

The Corporation has not adopted any standard, interpretation or amendment that has been issued but is not yet effective and no material impact is expected on the Corporation's consolidated financial statements. The Corporation will continue to assess the impacts, if any, the amendments to existing standards will have on our consolidated financial statements, but we currently do not expect any material impacts.

## 5 Critical accounting estimates and judgments

The preparation of the Corporation's consolidated financial statements, in conformity with IFRS, requires management of the Corporation to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. These estimates and judgments have been applied in a manner consistent with prior periods.

### COVID-19 Risk and Geopolitical Stability

The ongoing COVID-19 pandemic has caused world governments to institute travel restrictions both in and out of and within Canada and the UK, which has had, and is expected to continue to have an adverse impact on the Corporation's hospitality business. While government-imposed restrictions eased significantly over the course of 2022, and vaccination rates continued to rise, the uncertainty regarding the ongoing COVID-19 pandemic remains a threat to the continued recovery in the Corporation's hospitality business. The COVID-19 pandemic has also contributed to unusually competitive labour markets, causing inefficiencies in attracting, training and retaining employees. While the Corporation anticipates labour markets will stabilize, the timing remains uncertain.

In addition to this, certain geopolitical events and other factors have resulted in rising and unstable commodity costs for key inputs such as natural gas, electricity and diesel. In the event these cost increases exceed price increase mechanisms this could have an adverse effect on our business prospects and results of operations.

The Corporation's Credit Facility is subject to floating interest rates and, therefore, is subject to fluctuations in interest rates which are beyond the Corporation's control. Increases in interest rates, both domestically and internationally, could negatively affect the Corporation's cost of financing its operations and investments.

The duration and full financial effects of the COVID-19 pandemic, geopolitical events and rising interest rates, continue to be uncertain at this time. The Corporation is managing ongoing risks through the Corporation's business continuity plan and other mitigating measures. Any estimate of the length and severity of these developments is therefore subject to significant uncertainty.

Uncertainty about judgments, estimates and assumptions made by management during the preparation of the Corporation's consolidated financial statements related to potential impacts of the COVID-19 pandemic, geopolitical events and rising interest rates on revenue, expenses, assets,

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

---

liabilities, and note disclosures could result in a material adjustment to the carrying value of the asset or liability affected.

The following discusses the most significant accounting judgments and estimates that the Corporation has made in the preparation of the consolidated financial statements:

## Areas of Significant Judgment

### Recognition of rebate liabilities

In applying its accounting policy for volume rebates, the Corporation must determine whether the processing volume thresholds will be achieved. The most difficult and subjective area of judgment is whether a contract will generate satisfactory volume to achieve minimum levels. Management considers all appropriate facts and circumstances in making this assessment including historical experience, current volumetric run-rates, and expected future events.

### Impairment of goodwill and non-financial assets

Management reviews goodwill at least annually and other non-financial assets when there is any indication that the asset might be impaired. The assessment of impairment is based on management's judgment of whether there are sufficient internal and external factors that would indicate that an asset is impaired.

The Corporation applies judgment in:

- assessing the likelihood of renewal of significant contracts included in the intangible assets described in Note 8,
- identifying the CGUs to which intangible assets should be allocated to, and the CGU or group of CGUs at which goodwill is monitored for internal management purposes, and
- determining the appropriate comparable companies used in earnings multiple approach.

### Segment identification

When determining its reportable segments, the Corporation considers qualitative factors, such as operations that offer distinct products and services and are considered to be significant by the Chief Operating Decision Maker, identified as the Chief Executive Officer. Aggregation occurs when the operating segments have similar economic characteristics and have similar (a) products and services; (b) geographic proximity; (c) type or class of customer for their products and services; (d) methods used to distribute their products or provide their services; and (e) nature of the regulatory environment, if applicable.

### Lease term

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated). For many of the leases the cash outflows associated with the lease extension term would be material. The assessment is reviewed if a significant event or a significant change in circumstances occurs which affects this assessment and that is within the control of the lessee.

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

---

## Areas of Estimation Uncertainty

### Incremental Borrowing Rate

In applying its accounting policy for leases management considers all appropriate facts and circumstances in the determination the lessee's incremental borrowing rate being used and these rates are reviewed and update on an annual basis.

### Amortization of property, plant and equipment, and intangible assets

In applying its accounting policy for the amortization of property, plant and equipment, and intangible assets, management considers all appropriate facts and circumstances in the determination of the appropriate rates and methodology to allocate costs over their estimated useful lives, including historical experience, current volumetric run-rates, and expected future events.

### Linen in service

The estimated service lives of linen in service are reviewed at least annually and are updated if expectations change as a result of physical wear and tear, technical or commercial obsolescence and legal or other limits of use.

### Provisions

The Corporation's provision includes restructure costs and the restoration for premises of its leased plants. The Corporation determines restructure costs based off employment standards and legal consultation. For leased plants, a provision has been recognized for the present value of the estimated expenditure required to remove any leasehold improvements and installed equipment. Refer to Note 10 for more details about estimation for this provision.

### Impairment of goodwill and non-financial assets

Management reviews goodwill at least annually and other non-financial assets when there is any indication that the asset might be impaired. As part of this review the Corporation use estimates to calculate the appropriate discount rate and growth rate which are used to estimate the recoverable value.

During instances where indication of impairment exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Corporation estimates the recoverable amount of the cash generating unit to which the asset belongs. The recoverable value of CGUs require the use of estimates related to the future operating results and cash generating ability of the assets.

Management regularly evaluates these estimates and judgments. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

- (1) Included in laundry equipment are assets under development in the amount of \$181 (2021 - \$4,616). These assets are not available for service and accordingly are not presently being depreciated.
- (2) Total property, plant and equipment additions are inclusive of amounts incurred in the period that are yet to be paid, with amounts remaining in accounts payable and accrued liabilities of \$697 (2021 - \$873).
- (3) Additions include amounts from the Canadian Division of \$10,598 (2021 - \$26,287) and from the UK Division of \$8,940 (2021 - \$2,683).
- (4) Includes ROUA additions from the Canadian Division of \$1,691 (2021 - \$16,135), comprised of buildings of \$0 (2021 - \$15,205) and vehicles of \$1,691 (2021 - \$930). From the UK Division, ROUA additions were \$6,800 (2021 - \$2,152), comprised of buildings of \$0 (2021 - \$1,594) and vehicles of \$6,800 (2021 - \$558). This has resulted in corresponding increases to the lease liabilities in the amount of \$1,691 (2021 - \$16,135) for the Canadian Division and \$6,800 (2021 - \$2,152) for the UK Division.
- (5) Assets classified as held for sale are comprised of land and a building in Cupar, Scotland. The asset is currently marketed for sale, and it is anticipated to be sold during fiscal 2023.

## 9 Goodwill

Goodwill represents the excess of the acquisition-date fair value of consideration transferred over the fair value of the identifiable net assets acquired in a business combination. Goodwill is not amortized. Refer to Note 26 for the Corporation's impairment testing disclosure.

Goodwill has been allocated to the following CGUs:

	Calgary	Edmonton	Vancouver 2	Vancouver 1	Victoria	Canadian Division	UK Division	Total
Gross amount of goodwill	\$ 8,082	\$ 4,346	\$ 3,413	\$ 2,630	\$ 3,208	\$ 21,679	\$ 18,100	\$ 39,779

## 10 Provisions

The Corporation's provision includes a current provision of \$279 (2021 - \$703) to recognize restructuring costs, and a long-term provision of \$2,382 (2021 - \$2,811) that is comprised of lease provisions and obligations to restore leased premises of its leased plants.

Management estimates the current provision based on consultation from legal and current employment standards. Estimates of the long-term provision, is based off information from previous

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

asset retirement obligations, as well as plant specific factors. Factors that could impact the estimated obligation are labour costs, the extent of removal work required, the number of lease extensions exercised and the inflation rate.

A long-term provision has been recognized for the present value of the estimated expenditure required to settle the lease provision and to remove leasehold improvements and installed equipment. The Corporation estimates the undiscounted, inflation adjusted cash flows required to settle these obligations at December 31, 2022 to be \$3,203 (2021 - \$3,032). Management has estimated the present value of this obligation at December 31, 2022 to be \$2,382 (2021 - \$2,811) using an inflation rate of 2.0% (2021 - 1.80%) and pre-tax weighted average risk-free interest rate of 3.30% to 4.07% (2021 - 0.91% to 1.66%) dependent upon length of the lease term, which reflects current market assessments of the time value of money. These obligations are expected to be incurred over an estimated period from 2026 to 2039.

As at December 31, 2022, if actual costs were to differ by 10% from management's estimate the obligation would be an estimated \$266 (2021 - \$351) higher or lower. It is possible the estimated costs could change and changes to these estimates could have a significant effect on the Corporation's consolidated financial statements.

The Corporation recorded the following provision activity during the year:

For year ended December 31, 2022	Asset Retirement Obligations	Restructuring Costs	Other	Total
Balance, beginning of year	\$ 2,811	\$ 703	\$ -	\$ 3,514
Charges against provisions	39	-	-	39

Years ended December 31, 2022 and 2021)

## 11 Long-term debt

		Prime Rate Loan <sup>(1)</sup>
At January 1, 2021	\$	40,657
Net repayment of debt		(2,684)
Closing balance at December 31, 2021	\$	37,973
At January 1, 2022	\$	37,973
Net proceeds from debt		7,193
Closing balance at December 31, 2022	\$	45,166

- (1) The revolving credit facility is collateralized by a general security agreement, bears interest at prime or the applicable banker's acceptance rate, plus an interest margin dependent on certain financial ratios, with a monthly repayment of interest only, maturing on July 31, 2026. The additional interest margin can range between 0.0% to 1.75% dependent upon the calculated Funded Debt / Credit Facility EBITDA financial ratio, with a range between 0 to 3.25x. The required calculated Funded Debt / Credit Facility EBITDA financial ratio is subject to change based off certain terms and conditions. As at December 31, 2022 the combined interest rate was 6.95% (December 31, 2021 – 2.70%).

On July 18, 2022, the Corporation completed an amendment to its existing revolving credit facility, which extended the agreement from July 31, 2024 to July 31, 2026.

Under the credit facility, the Corporation is required, among other conditions, to respect certain covenants on a consolidated basis. The main covenants are in regard to its Funded Debt to Credit Facility EBITDA ratio and Total Fixed Charge Coverage ratio. Management reviews compliance with these covenants on a quarterly basis in conjunction with filing requirements under its credit facility. All covenants have been met as at December 31, 2022 and December 31, 2021.

The Corporation has a revolving credit facility of up to \$100,000 plus a \$25,000 accordion of which \$47,002 is utilized (including letters of credit totaling \$1,836) as at December 31, 2022. Interest payments only are due during the term of the facility.

Drawings under the revolving credit facility are available by way of Bankers' Acceptances, Canadian prime rate loans, Libor or UK pounds based loans, letters of credit or standby letters of guarantee. Drawings under the revolving credit facility bear interest at a floating rate, plus an applicable margin based on certain financial performance ratios.

A general security agreement over all assets, a mortgage against all leasehold interests and real property, insurance policies and an assignment of material agreements have been pledged as collateral.

The carrying value of borrowings approximate their fair value as the debt is based on a floating rate, the interest rate risk has not changed, and the impact of discounting is not significant.

The Corporation has incurred no events of default under the terms of its credit facility agreement.

Other charges, net	1,114	430
	<b>\$ 4,980</b>	<b>\$ 3,449</b>

## 13 Leases

### a) Amounts recognized in the balance sheet

The balance sheet reflects the following amounts relating to leases:

<b>Right-of-use assets</b>	December 31, 2022	December 31, 2021
Buildings	\$ 37,348	\$ 42,632
Equipment	9,429	7,731
	<b>\$ 46,777</b>	<b>\$ 50,363</b>
<b>Lease liabilities</b>	December 31, 2022	December 31, 2021
Buildings	\$ 43,992	\$ 48,865
Equipment	9,665	8,074
Total lease liabilities	53,657	56,939
Less, current portion of lease liabilities	(9,615)	(9,206)
Long term lease liabilities	<b>\$ 44,042</b>	<b>\$ 47,733</b>
<b>Additions to the right-of-use assets during the financial year:</b>		
Buildings	\$ -	\$ 16,799
Equipment	8,491	1,488
	<b>\$ 8,491</b>	<b>\$ 18,287</b>

### b) Amounts recognized in the statement of earnings

The statement of earnings reflects the following amounts relating to leases:

<b>Depreciation charge of right-of-use assets</b>	December 31, 2022	December 31, 2021
Buildings	\$ 4,913	\$ 4,620
Equipment	2,990	2,903
	<b>\$ 7,903</b>	<b>\$ 7,523</b>
Interest expense (included in finance expense)	\$ 2,070	\$ 2,144
Expense relating to leases of low-value assets that are not shown above as short-term leases (included in administrative expenses)	26	26
The total cash outflow for leases	<b>\$ 9,493</b>	<b>\$ 9,338</b>

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

## c) Reconciliation of expected lease liabilities

Lease liabilities	December 31, 2022	December 31, 2021
Balance at January 1,	\$ 56,939	\$ 46,003
Right of use asset additions	8,491	18,287
Right of use asset disposals	(3,679)	-
Interest expense	2,070	2,144
Cash payment of lease payments	(9,467)	(9,312)
Effect of movement in exchange rates	(697)	(183)
Total lease liabilities	53,657	56,939

## 14 Income taxes

A reconciliation of the expected income tax expense to the actual income tax expense is as follows:

	2022	2021
Current tax:		
Current tax expense on profits for the year	\$ 1,441	\$ 3,662
Total current tax expense	1,441	3,662
Deferred tax:		
Origination and reversal of temporary differences	144	150
Impact of substantively enacted rates and other	(47)	(24)
Total deferred tax expense	\$ 97	\$ 126

The tax on the Corporation's earnings differs from the theoretical amount that would arise using the weighted average tax rate applicable to earnings of the consolidated entities as follows:

	2022	2021
Earnings before income taxes	\$ 5,444	\$ 12,480
Non-taxable items	(933)	(1,878)
Income subject to tax	4,511	10,602
Income tax at statutory rate of 25.39% (2021 - 25.48%)	1,146	2,702
Difference between Canadian and foreign tax rates	351	524
Impact of substantively enacted rates and other	41	562
Income tax expense	\$ 1,538	\$ 3,788

The analysis of the deferred tax assets and deferred tax liabilities is as follows:

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

	2022	2021
Deferred tax assets:		
Deferred tax asset to be recovered after more than 12 months	\$ (16,904)	\$ (17,236)
	<b>(16,904)</b>	<b>(17,236)</b>
Deferred tax liabilities:		
Deferred tax liability to be recovered after more than 12 months	25,608	26,010
Deferred tax liability to be recovered within 12 months	5,450	5,326
	<b>31,058</b>	<b>31,336</b>
Deferred tax liabilities, net	<b>\$ 14,154</b>	<b>\$ 14,100</b>

The movement of deferred income tax assets and liabilities during the year, without taking into consideration the offsetting of balances within the same tax jurisdictions, is as follows:

Deferred tax assets	Lease Liabilities	Provisions	Offering costs and other	Total
At January 1, 2021	\$ (10,825)	\$ (548)	\$ (1,477)	\$ (12,850)

## 15 Contingencies and commitments

### a) Contingencies

The Corporation has standby letters of credit issued as part of normal business operations in the amount of \$1,836 (December 31, 2021 – \$2,389) which will remain outstanding for an indefinite period of time.

Grievances for unspecified damages were lodged against the Corporation in relation to labor matters. The Corporation has disclaimed liability and is defending the actions. It is not practical to estimate the potential effect of these grievances, but legal advice indicates that it is not probable that a significant liability will arise.

### b) Commitments

#### Utility commitments

The Corporation was committed to estimated natural gas and electricity commitments for the next five calendar years and thereafter as follows:

Utility commitments	
2023	\$ 11,958
2024	10,781
2025	2,358
2026	1,495
2027	-
Subsequent	-
	<hr/>
	\$ 26,592

#### Linen purchase commitments

At December 31, 2022, the Corporation was committed to linen expenditure obligations in the amount of \$10,161 (December 31, 2021 – \$12,075) to be incurred within the next year.

#### Property, plant and equipment commitments

At December 31, 2022, the Corporation was committed to capital expenditure obligations in the amount of \$2,341 (December 31, 2021 – \$445) to be incurred within the next year.

#### Trust funds on deposit

The Corporation maintains funds in trust for a customer to facilitate both parties in achieving their shared objectives. These funds are not available for the Corporation's general operating activities and, as such, have not been recorded in the accompanying Consolidated Statements of Financial Position. As at December 31, 2022, the Corporation held trust funds on deposit in the amount of \$964 (2022 – \$814).

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

## 16 Share Capital

### a) Authorized

The Corporation is authorized to issue an unlimited number of common shares and such number of shares of one class designated as preferred shares which number shall not exceed 1/3 of the common shares issued and outstanding from time to time.

### b) Issued

	2022	2021
Balance, beginning of year	10,719,778	10,676,889
Common shares issued under LTI	55,362	42,889
Common shares forfeited under LTI	(1,950)	-
Balance, end of year	10,773,190	10,719,778
Unvested common shares held in trust for LTI	64,552	78,632

## 17 Earnings per share

### a) Basic

Basic earnings per share is calculated by dividing the net earnings attributable to equity holders of the Corporation by the weighted average number of ordinary shares in issue during the year.

	2022	2021
Net earnings	\$ 3,906	\$ 8,692
Weighted average number of shares outstanding (thousands)	10,658	10,609
Net earnings per share, basic	\$ 0.37	\$ 0.82

The basic net earnings per share calculation excludes the unvested Common shares held by the LTIP Account.

### b) Diluted

Diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares to assume conversion of all dilutive potential ordinary shares.

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

	2022	2021
Basic weighted average shares for the year	10,657,742	10,608,539
Dilutive effect of LTI shares	77,527	77,648
Diluted weighted average shares for the year	10,735,269	10,686,187
	2022	2021
Net earnings	\$ 3,906	\$ 8,692
Weighted average number of shares outstanding (thousands)	10,735	10,686
Net earnings per share, diluted	\$ 0.36	\$ 0.81

## 18 Long-Term Incentive Plan

An account was formed to hold equity grants issued under the terms of the LTI on behalf of the participants (the "LTIP Account") and under certain circumstances the Corporation may be the beneficiary of forfeited Common shares held by the LTIP Account. The Corporation has control over the LTIP Account as it is exposed, or has rights, to variable returns and has the ability to affect those returns through its power over the LTIP Account. Therefore, the Corporation has consolidated the LTIP Account. Compensation expense is recorded by the Corporation in the period earned. Dividends paid by the Corporation with respect to unvested Common shares held by the LTIP Account are paid to LTI participants. Unvested Common shares held by the LTIP Account are shown as a reduction of shareholders' equity.

	2022		2021	
	Unvested	Vested	Unvested	Vested
Balance, beginning of year	78,632	595,660	79,423	551,980
Issued during year	37,172	18,190	29,331	13,558
Forfeited during year	(1,950)	-	-	-
Vested during year	(49,302)	49,302	(30,122)	30,122
Balance, end of year	64,552	663,152	78,632	595,660

The cost of the 64,552 (2021 - 78,632) unvested Common shares held by the LTIP Account at December 31, 2022 was \$0 (2021 - \$0).

## 19 Dividends to shareholders

During the year ended December 31, 2022, the Corporation declared total dividends to shareholders of \$12,905 or \$1.200 per share (2021 - \$12,846 or \$1.200 per share).

The Corporation's policy is to pay dividends to Shareholders of its available cash to the maximum extent possible consistent with good business practice considering requirements for capital expenditures, working capital, growth capital and other reserves considered advisable by the Directors of the Corporation. All such dividends are discretionary. Dividends are declared payable each month to the Shareholders on the last business day of each month and are paid by the 15th day of the following month.

Income taxes payable / receivable	(3,513)	(660)
	<u>\$ (5,621)</u>	<u>\$ (5,710)</u>

1) Accounts payable and other liabilities, include the net change of accounts payable, accrued liabilities, net change in the current provision (note 10) related to restructure costs for 2022 - (\$424) and in 2021 - (\$181), but *exclude* the net change in non-cash amounts related to the acquisition of property, plant and equipment that have been committed to and paid for during 2022 (\$176) and 2021 \$561.

## 21 Financial instruments

### a) Fair value

The Corporation's financial instruments at December 31, 2022 and 2021 consist of cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities, lease liabilities, dividends payable to shareholders, and long term debt. The carrying value of accounts receivable, accounts payable and accrued liabilities, lease liabilities, and dividends payable to shareholders, approximate fair value due to the immediate or short-term maturity of these financial instruments. The fair value of the Corporation's interest-bearing debt approximates the respective carrying amount due to the floating rate nature of the debt.

### b) Financial risk management

The Corporation's activities are exposed to a variety of financial risks: price risk, credit risk and liquidity risk. The Corporation's overall risk management program focuses on the unpredictability of financial and economic markets and seeks to minimize potential adverse effects on the Corporation's financial performance. Risk management is carried out by financial management in conjunction with overall corporate governance.

### c) Price risk

#### Currency risk

Foreign currency risk arises from the fluctuations in foreign exchange rates and the degree of volatility of these rates relative to the Canadian dollar.

The Corporation's operations in Canada are not significantly exposed to foreign currency risk as all revenues are received in Canadian dollars and minimal expenses are incurred in foreign currencies.

The Corporation's operations in the UK transacts in Sterling pounds £, with minimal revenue and expenses that are incurred in other foreign currencies. The Corporation is sensitive to foreign exchange risk arising from the translation of the financial statements of subsidiaries with a functional currency other than the Canadian dollar impacting other comprehensive income (loss).

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

---

For large capital expenditure commitments denominated in a foreign currency, the Corporation will enter into foreign exchange forward contracts if considered prudent to mitigate this risk.

Based on financial instrument balances as at December 31, 2022, a strengthening or weakening of \$0.01 of the Canadian dollar to the U.S. dollar with all other variables held constant could have a favorable or unfavorable impact of approximately \$1, respectively, on net earnings.

Based on financial instrument balances as at December 31, 2022, a strengthening or weakening of \$0.01 of the Canadian dollar to the Sterling pounds £, with all other variables held constant could have an unfavorable or favorable impact of approximately \$93, respectively, on other comprehensive loss.

## Interest rate risk

The Corporation is subject to interest rate risk as its credit facility bears interest at rates that depend on certain financial ratios of the Corporation and vary in accordance with market interest rates. Based on the credit facility at year end, the sensitivity to a 100 basis point movement in interest rates would result in an impact of \$452 (2021 - \$380) to net earnings.

## Other price risk

The Corporation's exposure to other price risk is limited since there are no significant financial instruments which fluctuate as a result of changes in market prices.

## d) Credit risk

The Corporation has financial assets that are subject to the expected credit loss model. The Corporation's financial assets that are exposed to credit risk consist of cash and cash equivalents and accounts receivable. The Corporation, in the normal course of business, is exposed to credit risk from its customers.

Management believes that the risks associated with concentrations of credit risk with respect to accounts receivable are limited due to the generally short payment terms, and the nature of the customers, which are primarily publicly funded health care entities. The credit risk associated with cash and cash equivalents is minimized by ensuring these financial assets are held with Canadian chartered banks and Standard Chartered Bank United Kingdom.

## Cash and cash equivalents

While cash and cash equivalents are also subject to the impairment requirements of IFRS 9, there was no identified impairment.

## Accounts receivable

The Corporation applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables and contract assets.

To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. The expected loss rates are based on the payment profiles of sales over a period of 60 months before December 31, 2022 or January 1, 2022 respectively and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The Corporation has identified the GDP and the unemployment rate of the countries in which it

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

provides services to be the most relevant factors, and accordingly adjusts the historical loss rates based on expected changes in these factors.

On that basis, the loss allowance as at December 31, 2022 and 2021 was determined as follows for trade receivables:

December 31, 2022	Gross	Allowance	Net
Current	\$ 27,986	\$ -	\$ 27,986
1 to 60 days	8,145	-	8,145
61 to 90 days	1,324	-	1,324
Greater than 90 days	450	144	306
	\$ 37,905	\$ 144	\$ 37,761

December 31, 2021	Gross	Allowance	Net
Current	\$ 24,132	\$ -	\$ 24,132
1 to 60 days	10,419	-	10,419
61 to 90 days	1,322	-	1,322
Greater than 90 days	1,117	143	974
	\$ 36,990	\$ 143	\$ 36,847

While the Corporation evaluates a customer's credit worthiness before credit is extended, provisions for potential credit losses are also maintained. The change in allowance for doubtful accounts was as follows:

	2022	2021
Opening loss allowance at January 1,	\$ 143	\$ 267
Adjustments made during the year	(10)	(87)
Recoveries (Write-offs)	11	(35)
Effect of movements in exchange rates	-	(2)
Balance, end of year	\$ 144	\$ 143

## e) Liquidity risk

The Corporation's accounts payable, dividend payable and other liabilities are due within one year.

Payments due under contractual obligations on an undiscounted basis for the next five years and thereafter are as follows:

(thousands)	Payments due by year				
	Total	2023	2024 to 2025	2026 to 2027	Subsequent
Long-term debt	\$ 45,166	-	-	45,166	-
Lease liabilities	\$ 61,172	10,236	17,188	12,799	20,949
Utility commitments	\$ 26,592	11,958	13,139	1,495	-
Linen purchase obligations	\$ 10,161	10,161	-	-	-
Property, plant and equipment commitments	\$ 2,341	2,341	-	-	-

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

---

The Corporation has a credit facility with a maturity date of July 31, 2026 (Note 11). The degree to which the Corporation is leveraged may reduce its ability to obtain additional financing for working capital and to finance investments to maintain and grow the current levels of cash flows from operations. The Corporation may be unable to extend the maturity date of the credit facility.

The Corporation's capital structure includes working capital, a committed revolving credit facility and share capital. The Corporation continuously monitors actual and forecast cash flows and monitors the availability on our committed credit facility to ensure sufficient liquidity is available.

To reduce liquidity risk, management has historically renewed the terms of the credit facility in advance of its maturity dates and the Corporation has maintained financial ratios that management believes are conservative compared to financial covenants applicable to the credit facility. A significant portion of the available facility remains undrawn.

Management measures liquidity risk through comparisons of current financial ratios with financial covenants contained in the credit facility.

## 22 Capital management

The Corporation's primary objectives when managing its capital structure are as follows:

- maintain financial flexibility and availability of capital in order to meet financial obligations, provide dividends, execute growth plans, and to continue growth through business acquisitions;
- manage the Corporation's activities in a responsible way in order to provide an adequate return for its shareholders, while taking a conservative approach towards financial leverage and management of financial risk; and
- comply with financial covenants required under the credit facility.

The Corporation pays a dividend which reduces its ability to internally finance growth and expansion. However, the availability of the Corporation's revolving line of credit provides sufficient access to capital to allow K-Bro to take advantage of acquisition opportunities. The merits of the dividend are periodically evaluated by the Board.

The Corporation monitors its capital structure and financing requirements using non-GAAP financial metrics required under its Credit Facility debt covenants, consisting of Funded Debt to Credit Facility EBITDA ratio and Total Fixed Charge Coverage ratio. The Funded Debt, Credit Facility EBITDA, and Total Fixed Charge Coverage are defined under the terms of the Credit Facility (see Note 11) and do not have any standardized meaning prescribed under IFRS. It is therefore unlikely to be comparable to similar measures presented by other companies. Debt covenant restrictions will vary due to the timing of Material Transactions as defined under the terms of the Credit Facility.

The Corporation's capital structure is comprised of borrowings under its credit facility, shareholders' equity, less cash and cash equivalents.

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

	Years Ended December 31,	
	2022	2021
Long-term debt, including current portion	\$ 45,166	\$ 37,973
Issued and outstanding letters of credit	1,836	2,389
Shareholders' equity	176,542	186,401
	223,544	226,763
Less: Cash and cash equivalents	(2,636)	(1,110)
	\$ 220,908	\$ 225,653

The Corporation's financing strategy is to maintain a flexible structure consistent with the objectives stated above, to respond adequately to changes in economic conditions and to allow growth organically and through business acquisitions. In order to maintain and adjust its capital structure, the Corporation may issue new shares in the market, contract bank loans and negotiate new credit facilities.

## 23 Related party transactions

The Corporation transacts with key individuals from management and with the Board who have authority and responsibility to plan, direct and control the activities of the Corporation. The nature of these dealings were in the form of payments for services rendered in their capacity as Directors (retainers and meeting fees, including share-based payments) and as employees of the Corporation (salaries, benefits, short-term bonuses and share-based payments).

Key management personnel are defined as the executive officers of the Corporation including the President and Chief Executive Officer, Senior Vice-President, Chief Financial Officer and one employee acting in the capacity of Managing Director, UK.

During 2022 and 2021, remuneration to directors and key management personnel was as follows:

	2022	2021
Salaries and retainer fees	\$ 1,802	\$ 1,872
Short-term bonus incentives	1,007	993
Post-employment benefits	63	64
Share-based payments	1,399	1,521
	\$ 4,271	\$ 4,450

The Corporation incurred expenses in the normal course of business for advisory consulting services provided by a Director. The amounts charged are recorded at their exchange amounts and are subject to normal trade terms. For the Years ended December 31, 2022, the Corporation incurred such fees totaling \$72 (2021- \$138).

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

## 24 Expenses by nature

	2022	2021
Wages and benefits	\$ 130,971	\$ 100,617
Linen	31,337	27,921
Utilities	23,754	13,547
Delivery	23,050	14,564
Materials and supplies	13,522	10,782
Occupancy costs	4,727	4,052
Repairs and maintenance	10,419	7,695
Other expenses	2,351	2,023
	\$ 240,131	\$ 181,201

During the year ended December 31, 2022, wages and benefits reflected in the table above includes an offset of government grants recognized in the year of \$0 (2021 - \$3,746).

## 25 Segmented information

The Chief Executive Officer (“CEO”) is the Corporation’s chief operating decision-maker. The Chief Executive Officer examines the Corporation’s performance and allocation of resources both from geographic perspective and service type, and has identified two reportable segments of its business:

1. Canadian division - provides laundry and linen services to the healthcare and hospitality sectors through nine operating divisions located in Vancouver, Victoria, Calgary, Edmonton, Regina, Toronto, Montréal, and Québec City. Management has assessed that the services offered and the economic characteristics associated with these divisions are similar, and therefore they have been aggregated into one reportable segment which operates exclusively in Canada.
2. UK division - provides laundry and linen services primarily to the hospitality sector, with other sectors including healthcare, manufacturing and pharmaceutical, through five sites which are located in Cupar, Perth, Newcastle, Livingston and Coatbridge.

The aggregation assessment requires significant judgment by management. Economic indicators used by management to assess the economic characteristics are the gross margin and the growth rate of each division.

The CEO primarily uses a measure of EBITDA to assess the performance of the operating segments. In addition, the CEO also receives information about the segments’ revenue and assets on a monthly basis.

### Segment revenue

The Corporation disaggregates revenue from contracts with customers by geographic location and customer-type for each of our segments, as we believe it best depicts how the nature, amount, timing and uncertainty of our revenue and cash flows are affected by economic factors.

Sales between segments are carried out at arm’s length and are eliminated on consolidation. The revenue from external parties is measured in the same manner as in the consolidated statements of earnings & comprehensive income.

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

In Edmonton and Calgary, the Corporation is the significant supplier of laundry and linen services to the entity which manages all major healthcare facilities in the region and is contractually committed to July 31, 2032. In Vancouver the major customer is contractually committed to March 1, 2027, and in Saskatchewan the major customer is contractually committed to June 1, 2031. For the year ended December 31, 2022, from these three major customers the Corporation has recorded revenue of \$130,360 (2021 – \$116,865), representing 47.1% (2021 – 52.2%) of total revenue.

	2022		2021	
Healthcare	\$ 167,239	60.4%	\$ 159,938	71.4%
Hospitality	44,796	16.2%	23,135	10.3%
<b>Canadian division</b>	<b>\$ 212,035</b>	<b>76.6%</b>	<b>\$ 183,073</b>	<b>81.7%</b>
Healthcare	\$ 6,167	2.3%	\$ 6,613	3.0%
Hospitality	58,421	21.1%	34,306	15.3%
<b>UK division</b>	<b>\$ 64,588</b>	<b>23.4%</b>	<b>\$ 40,919</b>	<b>18.3%</b>
<b>Total segment revenue</b>	<b>\$ 276,623</b>	<b>100.0%</b>	<b>\$ 223,992</b>	<b>100.0%</b>

## Segment net earnings and EBITDA

Segment net earnings and EBITDA are calculated consistent with the presentation in the financial statements. The net earnings and EBITDA is allocated based on the operations of the segment, and where the earnings and costs are generated from.

2022	Canadian division	UK division	Total
Net earnings (loss)	\$ 6,042	\$ (2,136)	\$ 3,906
EBITDA	\$ 32,365	\$ 4,127	\$ 36,492

2021	Canadian division	UK division	Total
Net earnings (loss)	\$ 13,604	\$ (4,912)	\$ 8,692
EBITDA	\$ 39,678	\$ 3,113	\$ 42,791

The Canadian division net earnings includes non-cash employee share based compensation expense of \$1,788 (2021 – \$1,848).

## Segment assets

Segment assets are measured in the same way as in the financial statements. These assets are allocated based on the operations of the segment and the physical location of the asset.

The Corporation's cash and cash equivalents are not considered to be segment assets but are managed by the treasury function.

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

<b>At December 31, 2022</b>	<b>Canadian division</b>	<b>UK division</b>	<b>Total</b>

<b>Total segment liabilities</b>	<b>\$ 85,136</b>	<b>\$ 23,009</b>	<b>\$ 108,145</b>

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

---

## 26 Impairment of assets

- i) The Corporation performed its annual assessment for goodwill impairment for the Canadian division and for the UK division as at December 31, 2022 and December 31, 2021 in accordance with its policy described in Note 2(k) and Note 2(h). The Corporation also performed impairment assessments for CGUs where there could be a risk of impairment due to the presence of potential impairment indicators at the CGU level.

For both periods, the recoverable amount for the CGUs was assessed using an earnings multiple approach. If the result of the earnings multiple approach indicated a higher level of sensitivity a probability weighted discounted cash flow approach was performed. The Corporation references Board approved budgets and cash flow forecasts, trailing twelve-month EBITDA, implied multiples and discount rates in the valuation calculations.

### Earnings multiple approach (FVLCD)

The assumptions used are based on the Corporation's board approved budgets, cash flow forecasts, trailing twelve-month EBITDA and the implied multiples. For both fiscal years, cash flows were projected based on actual results for the fiscal year tested as well as business forecasts for the immediate fiscal year following the testing period and then extrapolated for revenue growth and expected changes in the general economy and specific markets within which the CGU operates.

The implied multiple is calculated by utilizing the average multiples of comparable public companies. The Corporation used an implied average forward multiple of 10.60 (2021 - 10.80) to calculate the recoverable amounts. Where a CGU has sufficient headroom a probability weighted discounted cash flow approach was not performed.

Where a CGU shows sensitivity to the earnings multiple approach, particularly those CGUs with a strong hospitality base, higher uncertainty as a result of COVID-19 or higher uncertainty due to geopolitical events or unusually competitive labour markets, a secondary test is performed based on a probability-weighted discounted cash flow approach.

### Probability weighted discounted cash flow (VIU)

The recoverable amounts are determined using the value-in-use ("VIU") approach which considers the probability weighted discounted future cash flows specific to each CGU tested.

The assumptions used are based on the Corporation's board approved budgets, cash flow forecasts, trailing twelve-month EBITDA, the pre-tax discount rate and terminal value growth rate. For both fiscal years, cash flows were projected based on actual results for the fiscal year tested as well as business forecasts for the immediate fiscal year following the testing period and then extrapolated for revenue growth and expected changes in the general economy and specific market within which the CGU operates.

The discounted cash flows consider the specific environment within which each of the CGUs operate. Estimating the specific cash flows requires judgements on both past and future performance as well as overall market expectations. The calculation of the recoverable amount using the discounted cash flow was based on the following key assumptions:

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

	Testing Methodology	Pre-tax Discount Rate	Terminal Value Growth Rate	
	December 31 2022	December 31 2022	December 31 2022	December 31 2021
Calgary	FVLCD	n/a	n/a	n/a
Edmonton	FVLCD	n/a	n/a	n/a
Vancouver 2 *	FVLCD	n/a	n/a	2.0%
Vancouver 1	FVLCD	n/a	n/a	n/a
Victoria *	FVLCD	n/a	n/a	2.0%
UK	VIU	15.4%	2.0%	2.0%

\* For the year ended December 31, 2021, these CGUs were tested using the VIU methodology

For the December 31, 2022 impairment test, management's probability weighted approach was evaluated based on an equally weighted probability of a continued one-year downturn in sales to the worst case scenario of a two year downturn in sales. The scenarios estimated a decline of 8% to 12% for 2023, 7% for 2024 with sales returning to normalized levels thereafter with sales growth estimates used 2%. These represent the Corporation's best estimate of cash flows over the forecast period.

For the December 31, 2021 impairment test, management's probability weighted approach was evaluated based on an equally weighted probability of a continued one year downturn in sales to the worst case scenario of a two year downturn in sales. The scenarios estimated a decline of 5% to 25% for 2022, and 0% to 10% for 2023, with sales returning to normalized levels thereafter with sales growth estimates used 2%.

The terminal value growth rate is based on management's best estimate of the long-term growth rate for its CGUs after the forecast period, considering historic performance and future economic forecasts.

Based on testing performed at December 31, 2022 and December 31, 2021 no impairment was determined to exist.

## ii) Recoverable Amount

The recoverable amount of each CGU is sensitive to changes in the market conditions which could result in material changes. The Corporation does not believe there is a reasonable change in the key assumptions that would cause the recoverable amount of any CGU to break even or have an impairment. The table below shows the sensitivity of key assumptions to a reasonable change

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

	Recoverable Amount		Change in Pre-tax Discount Rate increase of 1%		Change in Terminal Value Growth Rate decrease of 1%	
	December 31 2022	December 31 2021	December 31 2022	December 31 2021	December 31 2022	December 31 2021

Edmonton	n/a	n/a	n/a	n/a	n/a	n/a
Vancouver 2 *	n/a	\$31,176	n/a	-\$3,152	n/a	-\$2,818
Vancouver 1	n/a	n/a	n/a	n/a	n/a	n/a
Victoria *	n/a	\$8,290	n/a	-\$770	n/a	-\$834
UK	£50,261	£53,083	-£4,201	-£4,915	-£4,458	-£4,988

\* For the year ended December 31, 2021, these CGUs were tested using the VIU methodology

## 27 Government Grants

The Corporation received government assistance for both their Canadian and UK division, under the following government programs:

### Canadian Division

- The Canada Emergency Wage Subsidy (“CEWS”) program was introduced by the Government of Canada on March 27, 2020, reimbursing eligible employers who have experienced the required reduction in revenue for a portion of salaries paid out to employees during the pandemic. During the year ended December 31, 2022, the Corporation submitted claims of \$0.0 (2021 - \$921.0) under the CEWS program, with \$0.0 (2021 - \$0.0) outstanding in receivables on the Corporation’s Consolidated Statements of financial position at December 31, 2022.
- During 2020, the Corporation received \$2,788 of linen in service from the Ontario Ministry of Health in exchange for a contractual commitment to provide a deferred linen service credit of \$1,665 to various Ontario hospitals allocated over the useful life of the linen. The difference between the fair value of linen in service received and the linen service credit is considered to be government assistance related to an asset that has been recorded as a reduction in the value of the linens and will be recognized as a reduction of the linen amortization charge over the life of the linens in service. The deferred linen service credit of \$0 (2021 - \$810) is reflected as a contract liability on the Corporation’s Consolidated Statements of financial position at December 31, 2022.

### UK division

- The Coronavirus Job Retention Scheme (“CJRS”) was introduced by the UK government on March 20, 2020 and provides eligible employers the ability to access support to continue paying part of their employees' salary for those employees that would otherwise have been laid off during the crisis. During the year ended December 31, 2022, the Corporation submitted claims of £0.0 (\$0.0) (2021 - £1,627 (\$2,826)) under the CJRS program with £0.0 (\$0.0) (2021 - £0.0 (\$0.0)) outstanding in receivables on the Corporation’s Consolidated Statements of financial position at December 31, 2022.

In accordance with IAS 20 Accounting for Government Grants and Disclosure of Government Assistance, the government grants have been recognized on the Corporation’s consolidated statements. During the Years ended December 31, 2022, \$0 (2021 - \$3,746) of government grants

# Notes to the Consolidated Financial Statements

(thousands of Canadian dollars except share and per share amounts,  
Years ended December 31, 2022 and 2021)

---

were offset to operating expenses which includes, wages and benefits of \$0 (2021 - \$2,633), delivery of \$0 (2021 - \$864), and corporate costs of \$0 (2021 - \$249).

During the year ended December 31, 2022, \$810 (2021 - \$855) of the deferred linen service credit was recognized in revenue such that the closing balance of \$0 (2021 - \$810) is reflected as a contract liability on the Corporation's Consolidated Statements of financial position at December 31, 2022.

## 28 Subsequent Events

### a) Dividends

The Corporation's Board of Directors declared an eligible dividend of \$0.10 per Common share of the Corporation payable on each of February 15, March 15, and April 14, 2023 to Shareholders of record on January 31, February 28, and March 31, 2023, respectively.

### b) Business acquisition

On March 2, 2023, the Corporation announced the closing of a share purchase agreement to acquire all the assets of a private laundry and linen services company incorporated in Canada and operating in Quebec City, Quebec for total consideration of \$11,500 and a potential earnout of \$1,900. The acquisition will be accounted for using the acquisition method, whereby the purchase consideration will be allocated to the net assets acquired. Paranet is a private laundry and linen services company for the Quebec City healthcare and hospitality markets. The purchase price will be satisfied by drawing down on the Corporation's revolving credit facility. At the time the financial statements were authorized for issue, and due to the timing of the acquisition, the Corporation has not yet completed the accounting for the acquisition of Paranet.
